

ALBOX *for keeps!*

**THE BEST WAY
TO KEEP**

CD's, DVD's & Videos

ALBOX has various solutions for CD, DVD and Video storage. All ALBOX polypropylene storage products are fully archival, acid free, adhesive free and 100% recyclable. As with all Albox products are **SUSTAINABLE**. Enclosures with metal rings are not recyclable and do not meet Sustainability standards.

CD's and DVD's can be placed in clear polypropylene pages and stored in polypropylene folders with slip-on covers and with 3 nylon rings. ALBOX has 2 page formats which can either hold 2 or 8 disks, as per photograph below.

CD Files – in 1.00mm polypropylene, with 25mm capacity rings
Code: CDFILE-BLK complete with 15 clear pages – holds 30 CD's
Slip Cover Option – Code: CDSLIP-BLK

Pages available separately - Code: CDPKT (2 CD's to a page)

CD/DVD Storage – 8 CD's to a page
Code: CDPKT8-10 (Packs of 10 pages) for use in conjunction with 25BSC and 40BSC Binders and Slip Covers

2 to a Page - CD Files

8 to a Page - CD/DVD Storage

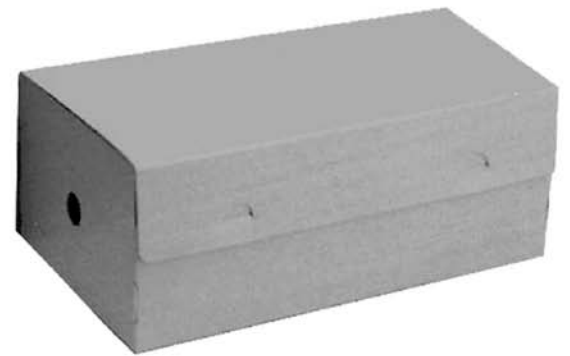

ALBOX has polypropylene boxes for storage of disks and videos which are still in their casings:

- **CD Box**
Code/Size: (245 x 130 x 145mm) is lightweight, durable and strong to store up to 23 disks in their case or up to 35 disks in slimline cases.
- **Type 5 Box**
Code/Size: (380 x 215 x 140mm) is a multi-purpose box to suit storage of DVDs and Videos within their outer casings

These boxes are shown below: -

The CD BOX – closed and opened

The Type 3 Storage Box

ALBOX has specially formulated **permanent adhesive labels** to stick on polypropylene for easy cataloguing. Supplied as A4 sheets for easy printing. Available in packs of 20 sheets. Labels sizes are: 16, 14, and 5 labels per A4 sheet

Codes/Sizes:

LABPK35-20 : 99 x 33.9 mm = 16 per sheet
LABPK55-20 : 99 x 38.1 mm = 14 per sheet
LABPK5 - 20 : 200 x 50 mm = 5 per sheet
